

# The Sheldon ART GALLERIES

PROJECT CREATIVITY:

## Pinhole Cameras with Mark Appling Fisher

Tuesday, June 27 from 6-9 p.m.

The Sheldon | Louis Spiering Room

\$40/ materials supplied

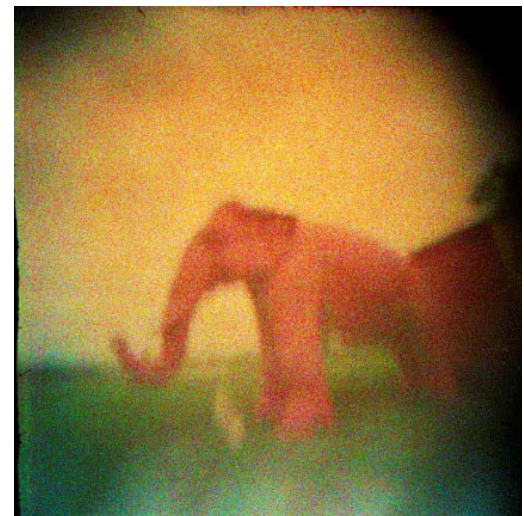

Make a pinhole camera from an empty paint can, shoot some pinhole images, and find out how to create your own body cap pinhole for your digital or film SLR in this workshop with photographer Mark Appling Fisher!

You'll learn a bit of history about pinhole cameras and see some examples of Mark's work using a variety of his homemade pinhole gizmos, as well as commercially available lens-less cameras.

[Register at dabble!](#)

**PROJECT CREATIVITY** is a new series of craft and art-making classes offered by the Sheldon Art Galleries, designed to help you discover your creative abilities! This summer, we offer our first set of classes, teaching the art of flower origami and pinhole camera-making. A cash bar and light snacks will be available. Bring friends and make it an evening of fun, cocktails and creative crafting!
